

Dear Meera Chander and Cameron McKenzie,

Please be advised effective, November 26, 2008. I, Kailey Gervais resign from my position of Vice President Programming with the Rideau River Residence Association. My notice of resignation has been decided based upon personal reasons. This decision was not an easy one; however it is the appropriate one to make for myself. The Vice President Programming position is an extremely important position for the association and at this time I do not feel like I am able to live up to the expectations of RRRA members and my fellow executives. I've had a wonderful experience within the first semester, I believe that the leadership potential of council members is very evident and I wish everyone the best of success. I encourage all of you to look up to Meera and Cameron as role models and take advantage of their advice and experience throughout the rest of the year.

I will be relocating to Toronto for personal reasons, effective immediately after the examination period.

A note in regards to my fellow executives:

I want to recognize the enormous effort and excellent work that both Meera and Cameron have contributed to the association. You are all very lucky to have two individuals that are dedicated to your well-being while in residence.

Sincerely,

Kailey Gervais
